

# Using Technology **MEANINGFULLY** during the June holidays!

The anticipated June holidays are finally here!  
How can you engage your child to ensure that it is well spent?  
Below are some suggestions:

## Research recipes online

Forget about food deliveries!  
Look up a recipe online and  
prepare a healthy and yummy  
meal for your family!

## Visit educational sites

Learning can take place outside  
the classroom too!

Visit educational sites to enrich  
your learning through games,  
videos and articles!

## Create a digital product

June holidays are perfect for  
creating a family collage or  
editing a video to capture  
those sweet memories!

## Enjoy digital books

Have you read an e-book or  
listened to an audiobook before?  
Reading is not restricted to just  
physical books. Why not try one  
e-book during this holiday?

## Go on virtual fieldtrips

Want to travel the world from the  
comfort of your home? You can do  
so now by exploring virtual  
fieldtrips!
